EXPERIENCE

**I have no experience in commercial development.
He applied his skills in educational projects.**

JavaScript/Front-end 2022Q3

Adaptive HTML/CSS layout based on figma layouts, PSD templates. Writing elements on a page using JS to receive data from third-party services (Flickr, OpenWeatherMap API), creating interactive elements (adaptive carousel, music player, animation using the Web Animation API).

JS/FE Pre-School 2022Q2

Switching from Javascript to Typescript. Used for Webpack. I wrote a tag game using Canvas. In a team project, he was a team leader, developed a Backend on Express and a MongoDB database. The final project was written in classes using Typescript, SCSS.

Angular 2023Q1

Used in the educational project NgRx, RxJS, Material Design. I created application components, added services for interactivity of components, changed the state of NgRx using Action, added logic to the Reducer to display State.
